Errata for Module 6 Lab

Lab 6

Task 0

Prior to starting the lab navigate to the Resource groups. Delete the **NetworkWatcherRG.** This will force the creation of a new **NetworkWatch** group and NetworkWatcher for the purposes of our lab.

Task 5

Step 4 The IPv4 version was not found.

Step 5 The Unhealthy threshold was not found.

Task 6

Step 7 It may take a few minutes to more than 20 minutes for the subnet-appgw to be found.
